

Paint Protection Film (PPF) Care Checklist

- ☐ Wash every 2-3 weeks by hand with pH-neutral soap
- ☐ Spot-clean bugs, sap, and bird droppings ASAP
- ☐ Avoid automatic car washes and spinning brushes
- ☐ Never use abrasive pads or harsh solvents
- ☐ Store indoors or park in shaded areas when possible
- ☐ Inspect film edges every few months for lifting or bubbling
- ☐ Optional: Apply a ceramic top coat to enhance performance
- ☐ Have your PPF inspected by a pro if you notice discoloration or damage
